Students Centric Methods

- (A) Experiential Learning**
- (B) Participative Learning**
- (C) Problem Solving Methodologies**

(A) Experiential Learning

Experiential learning is an engaged learning process whereby students “learn by doing” and by reflecting on the experience. Experiential learning activities can include, but are not limited to, hands-on laboratory experiments, internships, field exercises, academic, research and stage performances.

Well-planned, supervised and assessed experiential learning programs can stimulate academic inquiry by promoting interdisciplinary learning, civic engagement, career development, cultural awareness, leadership, and other professional and intellectual skills.

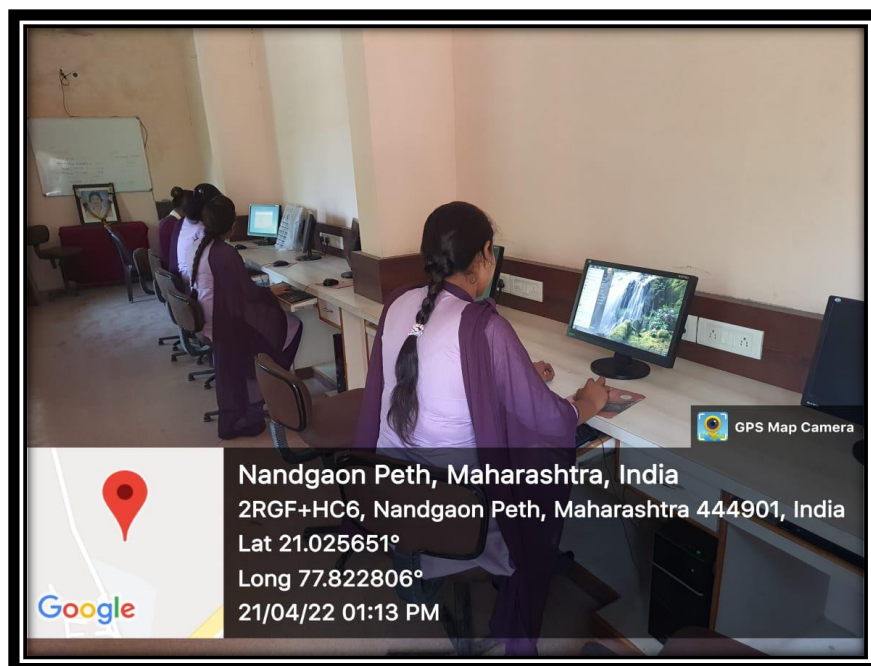

In Experiential learning students learn to take initiative, make decisions, and be accountable for the results. Students engage intellectually, creatively, emotionally, socially, or physically.

Laboratory Facilities

Laboratory Facilities are used for experiential learning : The College inculcates the skills by providing hands on training. The college has well equipped laboratories to provide experiential learning.

Computer Laboratory

Students practicing in computer laboratory

Students doing practical in Home Economics Lab

Yoga and Meditation

Yoga and Meditation: Practicing **yoga** is known to improve flexibility, balance, endurance and physical strength. While meditation helps to keep the mind sharp and clear, relieves stress and improves overall well-being.

Students and faculty members are practising Yoga

Social Outreach Programme

Students visit to the area of Nomadic Tribes

(B) Participative Learning

Participative learning approach is a form of a reflective learning approach which is learner centred teaching method. This method stresses the subjectivity of learners and the self construction of knowledge.

Different departments arrange programs for learners to participate in different activities and learn on their own. Participatory methods expect a high degree of activity and personal involvement of participants in the learning process. Participative learning has advantage that they encourage better retention of learned. They are contemporary students' centric methods of education.

Workshops, E- classroom sessions, seminars, study tours are the some activities college organize throughout the academic year to nurture the students' participants.

Conducting Survey

NSS volunteers conducting survey

Study Tours

Study Tours are arranged to give real life exposure, this experiential learning provides in practical knowledge of the subject

The students are provided experiential learning by arranging study tours. These tours are useful to enrich the knowledge and understanding of the subjects in a fruitful way.

Study Tours

ICT enabled Teaching-Learning

ICT enabled Teaching-Learning methods and tools are used to increase the participative approach of the students: ICT enabled teaching-learning is very important. The college recognized this well in advance and established essential facilities in classroom, to promote ICT enabled teaching and learning.

Faculty using ICT tools in a session

Debate Competition

Debate Competition is arranged for the advanced learner and gives them exposure to the regional level competition in the college campus.

The college organizes activities like regional level inter-collegiate debate competition every year in the month of January. Quiz competition, essay competition, rangoli competition, poetry competition organized at college level and other similar activities to inculcate necessary skills among the students. These activities led to enrich of understanding of current as well as relevant issues.

Students participation in Debate and Elocution Competition in Youth Festival

Seminar

Seminar is another approach to learn the things by participation. Students' participation increases their level of confidence and contributes to develop their personality:

The college promotes the active learning of the students by engaging them to deliver seminars on the topic of their choice. Such active learning helped to develop presentation skills, understanding of the subject and develop learning desires among the students.

English Wall-Magazine 'Insight'

(C) Problem Solving Methodologies

True problem solving is the process of applying a method – not known in advance – to a problem that is subject to a specific set of conditions and that the problem solver has not seen before, in order to obtain a satisfactory solution.

Problem solving is a necessary skill in all disciplines and one that the college is focusing on as part of the student centric methods, which provides students the opportunity to achieve new levels of excellence in key skills in a modern education. Problem solving activities help students, how to solve problems effectively and efficiently.

College gives emphasis on activities like projects, group discussions, workshops, training programs, Quiz Competition, Competitive Examination Cell etc.

Projects

Projects: Research problems are deal through academic research projects (Cover pages of project reports and certificates from different faculties)

Group Discussion

Group Discussion, this approach provides participative learning. GDs are arranged on regular basis for the students.

The students learn well when they are participated in the process of teaching-learning. Therefore, the college organizes group discussion for students to share their views, knowledge and clear their doubts through actual participation. Such activities have resulted in enhanced performance of the students.

Ongoing session of group discussion on a recent topic

Workshops Organized

Name of the Workshop	Date	Number of students participated
Online Workshop on "Asanas for Good Health"	21/06/2021	19
Online Workshop on "English Grammar & Communication Skills"	14/01/2022	32
